

**BREMICK**

# SHARKS TOOTH DECKING SCREW

**NEW**

**DRILLS FASTER,  
QUICKER &  
SMOOTHER!**

*Try it, we guarantee you'll love it!*

*After extensive testing  
and development we  
are proud to release  
our new Sharks Tooth  
Decking Screw*

**Specifically designed** for fastening  
hardwood decking to softwood joists.

**Minimise the need to pre-drill\***  
Let the spear point do the work for you.

**With our revolutionary Shark Tooth thread,**  
installation is fast, with an impressive finish around the head.

**The Torx drive recess** provides positive bit engagement  
for efficient, no fuss installation.

Available in **Stainless Steel**.

\*pre-drilling may be required on board end or with some of the extremely hard species of decking

**TRUSS HEAD**  
for perfect  
flush finish

**Sharks Tooth Thread**  
for **SUPERIOR  
DRILL SPEED**

**SWARF CHANNEL**  
to remove  
sawdust

**SPEAR POINT**  
for precision  
pre-drilling

**STAINLESS  
STEEL**

Check with your local  
stockist for available  
sizes and finishes.
